Have You Registered for **CODERED**?

On January 16, 2016 Calaveras County rolled out **CODERED** as a new emergency notification and alert system. The system initially was populated with residential and business telephone numbers that were provided by local telephone providers. If you have an unlisted number or a cell phone and want emergency notifications to be sent to you, **you must go On Line to register**. CodeRED is capable of sending email, text, or telephone messages. To receive text or email messages **you must go On Line and register**.

To register go to the Calaveras County Web Site at <http://Calaverasgov.us> and click on **CODERED**. When you enroll you can include cell phone numbers, text and email addresses. You also have the option to receive informational messages such as road closures or delays by checking the appropriate box.

Residents should be aware that no changes to the Nixle alert system are planned at this time. Together, Nixle and CodeRED will effectively reach out to residents of Calaveras County to keep our community informed of important notifications.
